Audiovisual Guidelines

Please use a PC (IBM Compatible) not Apple Macintosh formats.

- *Computers used in the conference are PCs loaded with Microsoft Office 2007.*
- *Please use Microsoft PowerPoint XP or later version to prepare your presentation.*
- *If your presentation includes embedded movies and/or sound, use the "Pack and Go / Package for CD" feature. This is found under the file menu. Pack and Go makes sure that all elements of your presentation are compiled together. This is especially important if you are saving to a CD. You risk not having all of your movie clips, graphics and sound clips if you use a standard "Save" or "Save as."*
- *If your presentation includes movies or embedded fonts, be sure, when creating a backup disk, to create a folder that includes your presentation and movie files or sound clips. This will insure that all the tools used to create the presentation are readily accessible on the show site, should the need arise to modify the presentation.*
- *Please remember that your movies should be in MPEG1 format. AVI files might not work properly on all computers unless special codec is used. MOV is not a compatible format to be run inside PowerPoint.*
- *DICOM players will not be available in all computers serving the conference.*
- *Speakers are not allowed to use their personal laptops whatever the reason is. Strict rules are applied in this matter. Apple users must prepare a PC compatible CD or DVD loaded with their presentation(s).*
- *Only digital media is allowed as a tool to present data, namely CDs, DVDs, Flash memory &/or external hard drive. No 35mm physical slides are allowed. No video tapes. No Transparencies. No Whiteboard. No Bluetooth mobile phones.*
- *Computers inside halls are not connected to the internet.*
- *Speakers MUST handle their PRESENTATION CDs one hour AT LEAST before the beginning of the session.*
- *The duration of the presentation is controlled digitally through computer software that will give a warning 3 and 1 minute(s) before the end of time end the view when time is up, thus we value your understanding to stick to the dedicated time.*
- *We are glad to help any speaker in case there is a need of any assistance.*
